CodeJunkies User Account Registration Guide

As of 18th November 2015 PowerSaves users are required to register a CodeJunkies account in order to continue to use the PowerSaves product - this is due to a major software update which has been implemented to improve the PowerSaves device and client functionality.

Unless you have created a CodeJunkies account to buy a product from CodeJunkies, it is unlikely that you will have one and so will need to create a account with CodeJunkies. CodeJunkies accounts are FREE to register.

If you are unsure how to register for a CodeJunkies account, please follow the step-by-step instructions in this guide. Should you encounter any issues while registering or post-registration, please see the 'Help: FAQ's & support' page at the end of the guide.

PLEASE NOTE: You will need your PowerSaves License Key (which can be found in the original packaging your PowerSaves device came in) to be able to use your PowerSaves client when you have set up a CodeJunkies account.

In this guide:

Step 1: The PowerSaves Client
Step 2: PowerSaves Client Home Screen
Step 3: Create an Account on CodeJunkies
Step 4: Your CodeJunkies Account
Step 5: Back to the PowerSaves Client
